ROSPECTUS OF THE NEW LIBRARY
OF LAW AND EQUITY, under the direction of Francis J. Troubat, eaq., of Philadelphia;
Hon. Ellis Lewis, of Lancaster; and Wilson McCandless, eaq., of Pritaburgh.
This work contains the beat productions of English law authors, without regard to priority of claim on the part of any American publisher. Such books are now notoriously too dear. The reason is, that as fast as they appear, they become monopolies in the hands of booksellers in the Atlantic cities. Under the plac of right, acquired by the addition of notes of American decisions, the latter claim an undivided title to those works, and set a burdensome price on them. The publishers of the work now offered to the profession throughout the Union, will not respect such titles, but will reprint the standard British law books as fast as they emanate from the London market. Should new editions of the works of such writers as Starkie, the Chittya, Stephen, and Archbold, appear, they shall also be included; and digests of equity and law decisions—works which have been studiously kept out of the Law Library published at Philadelphia—shall have a place in the proposed new one, together with agery new valuable English treatise on chancery or common law.

The This work will be issued monthly, in num-

mew valuable English treatise on chancery
mon law.

This work will be issued monthly, in numbers of 160 pages, printed on fine white paper, and
good new long primer type, at seven dollars per annum, payable half yearly.

BECKWITH'S ANTI-DYSPEPTIC PILLS levery variety of functional disorder of the stomach, bowels, liver, and spleen; such as heartburn, acid cructations, nausea, headache, pain and distension of the stomach and bowels, incipient diarrhea, colic, jaundice, flatulency, habitual costiveness, loss of appetite, sick headache, sea-sickness, &c., &c. They are a safe and comfortable aperient for females during pregnancy and subsequent confidement; relieving sickness at the stomach, headache, heartbura and many of the incidental nervous affections. Literary men, students, and most other persons of sedentary habits, find them very convenient. Those who indulge too freely in the pleasures of the table find speedy relief from the sense of oppression and distension which follow, by taking the pills. As a dinner pill, they are invaluable. Those who are drinking maneral waters, and particularly those from southern climates, ague and fever districts, will find them a valuable adjunct. Those who are exposed to the viciositudes of weather on voyages or journeys, can take them at all times with perfect safety. In full doses they are a highly efficacious and safe antibilious medicine. They seldom or never produce sickness at the stomach or griping.

There have been many imitations and worthless counterfeits of these pills put in circulation by unprincipled and ignorant persons—the directions, wrappers, &c., of the genume pills so closely and accurately copied, that the closest observer could not, without a trial of their effects, distinguish between them.

ELIXER OF CALISAYA BARK.

THIS preparation is particularly recommended to persons of weak habit, and to such as reside in low situations, where the nervous system is, in general, more or less relaxed. The addition of certain ingredients has so completely disguised the taste of the bark, as to render this efficacious remedy, a most palatable cordial; thus peculiarly adapting it to conquer that repugnance which most persons experience after taking for some time bitter potions, as it combines the greatest efficacy with a highly agreeable flavor. As a preventive of the ague it has superseded the use of all other remedies, in such parts of the country as it is known. Prepared only by J. Milhau, No. 183 Broadway, New York. Buchan of London, England, and introduced into
the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine in the

DR. DYOTT'S ANTI-BILIOUS PILLS. DR. DYOTT'S ANTI-BILIOUS PILLS.

A 8 a family medicine, a mild and gentle purgative, and purifier of the blood. The general use of these celebrated pills throughout the United States for these forty years past, and the strong recommendations they have acquired from all classes of our fellow-citizens, places them in a much more elevated situation in public estimation, than any other remedy which has heretofore been introduced.

The following are among the many diseases for which Dr. Dyott's celebrated pills are so deservedly distinguished for curing. By their counteracting properties in removing the bile from the stomach, they prevent and cure the bilious fever; chills, or ague and fever; spring and fall fevers; yellow fever; bilious cholic; pleurisy; dysentery; worms; bilious vomiting; sick and foul stomach.

By cleansing the bowels and stomach from all im-

ague and fever; spring and fall fevers; yellow fever; billious cholic; pleurisy; dysentery; worms; bilious vomiting; sick and foul stomach.

By cleansing the bowels and stomach from all impurities, they reatore the loss of appetite, remove fatulency, cure the headache, habitual costiveness, colds, coughs, asthma, epileptic fits, hypochondria, hysterical complaints, stranguary, gravel, &c.

By a general and copious use, they will be found very beneficial in curing the rheumatism and gout, lumbago or pains in the back.

All impurities in the blood yield to their happy effects, whether proceeding from constitutional allowant of the complaints of the constitutional allowant of the complaint of the complaint, dec.

These celebrated pills have been used to very great advantage in curing the dyspepsia, or indigestion, bronchitis, liver complaint, &c.

They are an infallible medicine for female complaints generally, and especially for removing those obstructions which are the source of their aliments at certain periods; they possess the eminent advantage over most other purgatives, that, while they operate gently, they produce neither cos.iveness, debility, or too great excitement.

Whenever there is a predisposition to receive disease from marsh effluvia, or from a too copious use of ardent spirits, or from a vittated state of the bile, these pills will assuredly counteract it.

They are highly recommended to travellers by sea or land, and may be made use of with safety without change of diet, and in situations where no exercise can be used. They will be found particularly valuable for preventing diseases incidental to hot climates; they deterge and cleanse viscid humors, open obstructions, and promote the secretion of good bile, operate as an easy cathartic, as a powerful diuretic, and as a disphoretic.

Dr. Dyott, under the strong conviction of the power of his pills to relieve the afflicted, recommends the use of them to those who are in health as well as the afflicted, at leace once a fortnight, during the spring
